Subject: Proj. 36, #S170022

Dear Mr. Hedberg,

This note is to follow-up on our telephone conversation on October 30th concerning Project 36, named after School Section No. 36 through which flows the upper part of Crescent Creek in the Henry Mountains.

The intent of Project 36, in 1987-88, was to assess the alluvial reserves of gold-bearing gravels. Endeavors to attract financing were not successful, and the project was abandoned.

I have sent a number of notices to the Division of Oil, Gas and Mining to inform regarding the dissolution of the company over 10 years ago, but I still receive the form to report annual activities. Each year I return the form saying the same thing, to wit, the project is dead, has been for 10 years, and, in fact, never got off the ground. The school sections 2, 32 and 36 that were held by Don Ekker and me were automatically voided about two yeras ago having reached their 10-year life.

I hope that you will correct the Division file/record on the subject of Project 36.

Sincerely,

Richard J. Claus
